

GLOBALSUITE® GRC

The smartest GRC. Now powered by AI.

Risk, compliance, audit, security and continuity in a single platform, with AI built into every module. Fewer tools, fewer silos and better decisions — while you get on with growing your business.

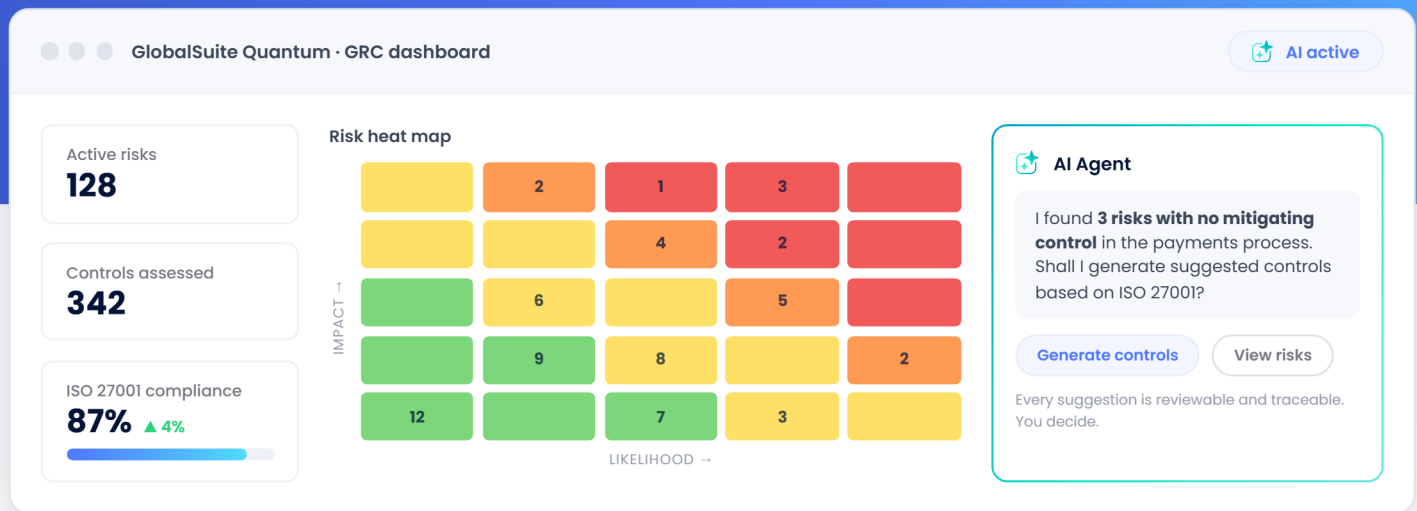

AI in every module

2,000+ organisations

30+ countries

Deployed in 3–6 months

WHY GRC

Leave spreadsheets and silos behind. Govern everything from a single environment.

01

No more silos

Full traceability between risks, controls, plans, evidence and owners.

02

Automate the repetitive

Workflows and automatic calculation that remove errors and hours of manual work.

03

Data-driven decisions

Executive dashboards and Word and Excel reports always up to date.

04

Ready from day one

Methodologies, risk catalogues and regulations preloaded. No starting from scratch.

EVERY MODULE ON THE PLATFORM

GRC

All-in-one GRC software.

Security

Stay ahead of security threats.

Privacy Data Protection

Simplify privacy compliance.

TPRM

Manage third-party risk, automatically.

Risk Management

Intelligent risk management for your business.

Compliance Management

Build a friction-free compliance culture.

Business Continuity

Keep the business running, whatever happens.

Audit Management

Control and monitor your audit work.

ESG Management

Lead the transition to sustainability.

AI Governance

Orchestrate the life cycle of your AI systems.

AI is not a module. It runs across the whole platform.

AI capabilities in production inside every module: they analyse, draft, verify and prioritise where you work. AI proposes; your team reviews and decides. Every suggestion is explainable and traceable.

AI Assistant

Talk to your GRC data in natural language and resolve questions instantly.

AI Risk Agent

An agent that identifies risks and controls, and proposes ratings and action plans.

Compliance Agent

Spots regulatory gaps and proposes controls before the auditor does. Identifies which requirements apply to you based on your organisation's context.

Policy Generator & Document Processing

Drafts policies and documentation aligned with each framework, with traceable references, and automatically extracts and classifies documents and evidence.

Risk & Control Generator

Generates suggested risks and controls for your organisation's context.

Control & Evidence Verifier

Analyses controls and their evidence. Don't review them one by one: AI does it for you.

Vendors & Assets Integrity Check

Analyses asset, vendor and risk ratings to check consistency and flag inconsistencies.

Quantitative Risk

Quantifies risk with Monte Carlo: expected loss, VaR and ROI.

WHAT MAKES US DIFFERENT

Truly all-in-one

A single platform instead of fragmented solutions: risk, security, continuity, audit and compliance — with AI.

Live in 3–6 months

Preconfigured frameworks and preloaded catalogues. No endless integration cycles.

Expert consultative support

Beyond software: our team adapts the solution to your operational and regulatory context.

The best ROI on the market

Flexibility, speed and support that make GlobalSuite® the most profitable GRC platform.
